Sorry for this, but this is another version with all of the comments. I missed some in the earlier version.

Hi Everyone,

People had many good changes and additions, so here's the most recent copy. I also created another attachment for Q and As that we can be ready for. Talk to you all soon.

I made a few changes to the clean version after saving, so the tracked changes has almost all the changes, but the clean version has everything, so I'd look at that version first. I'll merge them later, if necessary when I have more time.
